DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

In line 10 on page 13, "294" should be - -394- -.

Appropriate correction is required.

Claim Objections

2. Claims 10-15 are objected to because of the following informalities:

In claim 10, line change "the system" to - -the circuit- -.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(1) regarding claim 1:

It is contradictory to locate a third pattern, fourth pattern , and fifth pattern without searching if the searching is only for a first pattern and a second pattern as recited in claim.

(2) regarding claim 10:

Claim recites the limitations "the first sample and the second sample" in lines 7-8, and "the shift circuit" in line 13. There is insufficient antecedent basis for these limitations in the claim since the limitations were not introduced before.

Claim recites the limitation "a third memory storage circuit". There is insufficient antecedent basis for this limitation in the claim unless two other memory storage circuits are described in the preceding text of claim 10. This problem could be corrected by replacing the text "a third memory storage circuit" with either "a first memory storage circuit" or "a second memory storage circuit" if changing the preceding "a memory storage circuit" to "a first memory storage circuit".

Allowable Subject Matter

5. Claims 16 and 17 are allowed.
6. Claims 1-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
7. The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to teach and suggest a farming circuit, comprising a pattern search circuit and a shift circuit as recited in claims.
